The main content area is titled "Real-time Sessions Worldmap" and contains a Google Maps interface. The map shows a world map with several red circular markers indicating session locations. A prominent blue circular marker with the number "2" is located in France. Other red markers are visible in the United States, Mexico, and South America. The map includes standard Google Maps controls such as "Map" and "Satellite" tabs, a search bar, and zoom controls. The Google logo and "Map data ©2018 | Terms of Use" are visible at the bottom of the map area.

## Get Started

If you are using the simple Centova Cast Reporting you probably know by now those reports are not compatible with the required reporting from the Performance Rights Organizations.

It's time to get in compliance and save money on your royalty reporting. Why pay extra for listeners outside of the United States like you are with your current reporting system?

When it comes to comprehensive reporting and analytics we have one of the only true tested systems available.

- We filter out bots, sweepers, ads, multiple connections from the same IP and the garbage the others give you.
- All this for Only \$79.95 per month, per station.
- We offer Non-Profit, School and local government discounts.
